Snapshots for February!

Spelling:

Every Monday your child is required to write down the spelling words into their planners to study at home! Encourage your child to practice their words before the spelling test every Friday. Check out who our "Spelling Stars" are every week on our website!

Language Arts:

We have been enjoying our book, "Holes." The students are improving on their comprehension questions that they receive each week. The students are already nearing the end of the book! Students will get a quiz when we finish the novel.

Math:

We are still on Unit 3 in our Math Makes Sense textbook, "Multiplying and Dividing Whole Numbers." I strongly encourage the students to practice their times tables as the use of multiplication charts or calculators is not permitted.

Science:

The students are enjoying learning all about Simple Machines! This week we're learning all about our third simple machine, "The Lever." Students are reminded to keep their notes organized when copying notes off the overhead!

Social Studies:

We are currently reading through our "Connections Canada" textbook. We are now immersing ourselves into learning all about the Canadian Government!

February 22 - Ash Wednesday Mass

February 27 - Science Test

February 28 - Math Test

February 29 - Science Fair Presentations

Now Featuring:

This Month's Virtue

~~Lo-ve~~ Love is a special feeling that fills your heart. You can show love by treating people and things with special care and kindness. We should practice it because without love, people feel alone. Everyone wants to be liked and loved.

Encourage your child to put themselves in other people's shoes and to be kind to others.

From The Teacher:

Next week is Catholic Education Week! It's always a fun week for the students and not only that, but I love how it brings the whole school together in spirit! January was a very long and busy month for the kids. They still need to be reminded about keeping their work organized and to stay on top of their homework. Report cards are already looming over the horizon so I have been encouraging the kids to do their best! ☺ Please pay attention to our calendar of events. We have a VERY busy month ahead of us!

Lights, Camera, Action!

Congratulations to Isabella Mansbridge for receiving January's Kids for Kindness Award, "Thankfulness."
